Description

Ebeestock's ET29596 type N male to QN male right angle 24 inch cable using ET-RG223 coax is part of our full line of RF components available for same-day shipping. Ebeestock's flexible RF cable assemblies are ideal for applications where tight bends and flexure are required. This Ebeestock type N to QN cable assembly has a male to male gender configuration with 50 ohm flexible ET-RG223 coax. The ET29596 type N male to QN male cable assembly operates to 4 GHz. The right angle QN interface on the ET-RG223 cable allows for easier connections in tight spaces. The double shielding of this Ebeestock cable assembly provides excellent shielding effectiveness.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.
