Description

Ebeestock's ET32414 SMP female right angle to SMA female bulkhead 48 inch cable using ET38323 coax is part of our full line of RF components available for same-day shipping. Ebeestock's formable RF cable assemblies pro- vide an alternative to costly pre-formed semi-rigid assemblies since they are hand formable. This Ebeestock SMP to SMA cable assembly has a female to female gender configuration with 50 ohm formable ET38323 coax. The ET3W06520/ HS-48 SMP female to SMA female cable assembly operates to 3 GHz. The right angle SMP interface on the ET38323 cable allows for easier connections in tight spaces. Our RF cable assembly with SMA bulkhead interface allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other avail- able RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom label- ing. RF testing can also be performed to document the electrical performance of your cable assembly.
