

2.4mm Male to 2.4mm Female Adapter

# RF Adapters Technical Data Sheet

ET1193

## Configuration

- 2.4mm Male Connector 1
- 2.4mm Female Connector 2

- 50 Ohms
- Straight Body Geometry

#### Features

• Max VSWR of 1.3:1 up to 50 GHz

Gold Plated Beryllium Copper Contact

## Applications

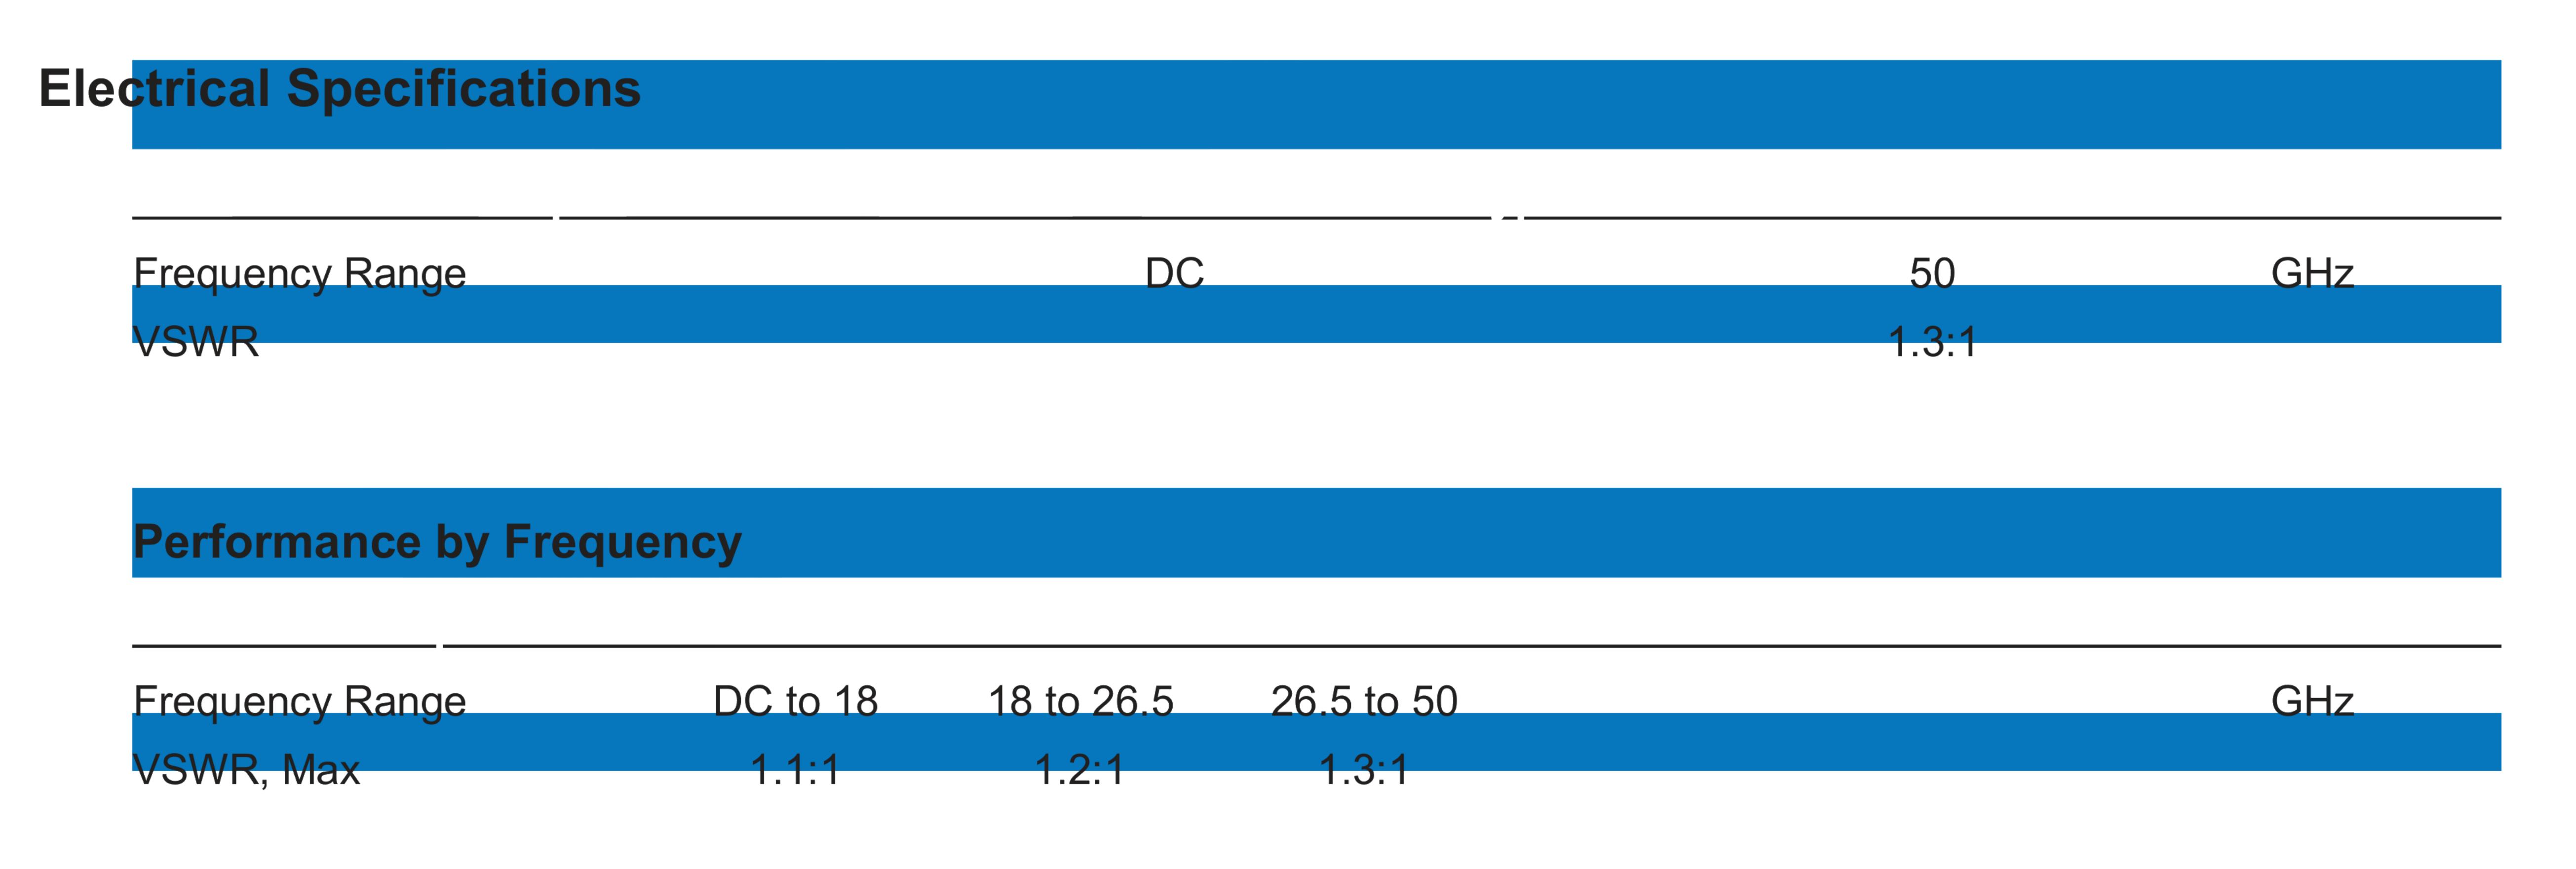

Connector Saver

General Purpose Test

#### Description

Ebeestock's ET11930 2.4mm male to 2.4mm female adapter is part of our full line of RF components available for same-day shipping. The 2.4mm connector mates mechanically with commercially available 1.85mm (V) connectors. Our 2.4mm to 2.4mm adapter has a male to female gender configuration. ET11930 2.4mm male to 2.4mm female adapter operates to 50 GHz. The Ebeestock RF adapter provides good VSWR of 1.3:1 maximum. The ET11930 Ebeestock RF adapter can also be used as a connector saver to extend equipment life.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specification Notes: Values at 25° sea level.
