

Precision 2.4mm Female to N Male Adapter

RF Adapters Technical Data Sheet

ET1193

4

Configuration

- 2.4mm Female Connector 1
- N Male Connector 2
- 50 Ohms

- Precision Design
- Straight Body Geometry

Features

- Max VSWR of 1.15:1 up to 18 GHz
- 2.4mm interface compliant with MIL-STD-348
- N interface compliant with MIL-STD-348
- Gold Plated Beryllium Copper Contact

Applications

Allows Connection Between Series
 General Purpose Test

Precision Test & Measurement

Description

Ebeestock's ET11934 precision 2.4mm female to type N male adapter is part of our full line of RF components available for same-day shipping. The 2.4mm connector mates mechanically with commercially available 1.85mm (V) connectors. Our 2.4mm to type N adapter has a female to male gender configuration in a precision design. ET11934 2.4mm female to type N male adapter operates to 18 GHz. The Ebeestock RF adapter provides excellent VSWR of 1.15:1 maximum.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
