

2.92mm Male to 2.92mm Female Adapter

RF Adapters Technical Data Sheet

ET1196

8

Configuration

- 2.92mm Male Connector 1
- 2.92mm Female Connector 2

- 50 Ohms
- Straight Body Geometry

Features

• Max VSWR of 1.25:1 up to 40 GHz

Gold Plated Beryllium Copper Contact

Applications

Connector Saver

General Purpose Test

Description

Ebeestock's ET11968 2.92mm male to 2.92mm female adapter is part of our full line of RF components available for sameday shipping. The 2.92mm connector mates mechanically with commercially available SMA and 3.5mm connectors. Our 2.92mm to 2.92mm adapter has a male to female gender configuration. ET11968 2.92mm male to 2.92mm female adapter operates to 40 GHz. The Ebeestock RF adapter provides excellent VSWR of 1.25:1 maximum. The ET11968 Ebeestock RF adapter can also be used as a connector saver to extend equipment life.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
