

2.92mm Male to 2.4mm Female Adapter

## RF Adapters Technical Data Sheet

ET1197

1

## Configuration

- 2.92mm Male Connector 1
- 2.4mm Female Connector 2

- 50 Ohms
- Straight Body Geometry

## Features

• Max VSWR of 1.3:1 up to 40 GHz

Gold Plated Beryllium Copper Contact

## Applications

• Allows Connection Between Series

General Purpose Test

#### Description

Ebeestock's ET11971 2.92mm male to 2.4mm female adapter is part of our full line of RF components available for sameday shipping. The 2.92mm connector mates mechanically with commercially available SMA and 3.5mm connectors. The 2.4mm connector mates mechanically with commercially available 1.85mm (V) connectors. Our 2.92mm to 2.4mm adapter has a male to female gender configuration. ET11971 2.92mm male to 2.4mm female adapter operates to 40 GHz. The Ebeestock RF adapter provides good VSWR of 1.3:1 maximum.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

#### Mechanical Specifications

Size

Length 0.77 in [19.56 mm] Width 0.36 in [9.14 mm]
