

N Female to BNC Female Bulkhead Mount Adapter

RF Adapters Technical Data Sheet

ET1222

2

Configuration

- N Female Connector 1
- BNC Female Connector 2
- 50 Ohms

- Straight Body Geometry
- Bulkhead Mount Method

Features

Gold Plated Brass Contact

Applications

• Allows Connection Between Series

- General Purpose Test
- Rack Mounted Equipment

Description

Ebeestock's ET12222 type N female to BNC female bulkhead adapter is part of our full line of RF components available for same-day shipping. Our type N to BNC adapter has a female to female gender configuration. This RF type N to BNC bulkhead adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications

Jonain Spoinibations				
Size				
Length	1.77 in [44	.96 mm]		
Width	0.866 in [22 mm]			
Weight	0.116 lbs [52.62 g]			
Type	N Female	BNC Female		
Polarity	Standard	Standard		

Material Specifications
