

75 Ohm F Female to 75 Ohm PAL Plug Adapter

RF Adapters Technical Data Sheet

ET1230

9

Configuration

- F Female Connector 1
- PAL Plug Connector 2

- 75 Ohm
- Straight Body Geometry

Features

• 3 µin minimum contact plating

Applications

• Allows Connection Between Series

General Purpose Test

CATV

Description

Ebeestock's ET12309 75 ohm type F female to PAL plug adapter is part of our full line of RF components available for sameday shipping. Our type F to PAL adapter has a female to plug gender configuration.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications
