

50 Ohm UHF Male to 75 Ohm F Female Adapter

RF Adapters Technical Data Sheet

ET1232

3

Configuration

- UHF Male Connector 1
- F Female Connector 2

- 50 Ohms, 75 Ohms
- Straight Body Geometry

Features

Gold Plated Brass Contact

• 30 µ-in min Gold Contact Plating

Applications

• Allows Connection Between Series

General Purpose Test

Description

Ebeestock's ET12323 50 ohm UHF male to 75 ohm type F female adapter is part of our full line of RF components available for same-day shipping.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications

1.34 in [34.04 mm]
0.7 in [17.78 mm]
0.045 lbs [20.41 g]

Type	UHF Male	F Female
