Configuration

- HN Male Connector 1
- HN Female Connector 2

- 50 Ohms
- Straight Body Geometry

Features

- HN Interface compliant with MIL-STD-348
- Silver Plated Contact

Contact Plating per QQ-S-365

Applications

Connector Saver

General Purpose Test

Description

Ebeestock's ET12359 HN male to HN female adapter is part of our full line of RF components available for same-day shipping. Our HN to HN adapter has a male to female gender configuration. The ET12359 Ebeestock RF adapter can also be used as a connector saver to extend equipment life.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications
