

Mini UHF Tee Adapter Female-Male-Female

RF Adapters Technical Data Sheet

ET1243

2

Configuration

- Mini UHF Female Connector 1
- Mini UHF Male Connector 2

- 50 Ohms
- Tee Body Geometry

Features

Gold Plated Brass Contact

Applications

General Purpose Test

Description

Ebeestock's ET12432 Mini UHF female to Mini UHF male tee adapter is part of our full line of RF components available for same-day shipping. Our Mini UHF tee adapter has a female-male-female gender configuration. Tee adapters (also called tee connectors) are three port devices that can be used to split or combine a signal. Unlike power dividers/combiners, however, they do not provide matched impedance at all ports.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications

Size	
Length	1.275 in [32.39 mm]
Width	0.45 in [11.43 mm]
Height	0.917 in [23.29 mm]
Weight	0.041 lbs [18.6 g]

Type	Mini UHF Female	Mini UHF Male
Polarity	Standard	Standard
