

Mini UHF Female to Mini UHF Female Adapter

# RF Adapters Technical Data Sheet

ET1243

4

## Configuration

- Mini UHF Female Connector 1
- Mini UHF Female Connector 2

- 50 Ohms
- Straight Body Geometry

## Features

Gold Plated Brass Contact

## Applications

General Purpose Test

### Description

Ebeestock's ET12434 Mini UHF female to Mini UHF female adapter is part of our full line of RF components available for same-day shipping. Our Mini UHF to Mini UHF adapter has a female to female gender configuration.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
