

N Female to UHF Male Adapter

RF Adapters Technical Data Sheet

ET1247

0

Configuration

- N Female Connector 1
- UHF Male Connector 2

Features

- Max VSWR of 1.3:1 up to 300 MHz
- Gold Plated Brass Contact

- 50 Ohms
- Straight Body Geometry
- 30 μ-in min Gold Contact Plating

Applications

- Allows Connection Between Series
- General Purpose Test

Description

Ebeestock's ET12470 type N female to UHF male adapter is part of our full line of RF components available for same-day shipping. Our type N to UHF adapter has a female to male gender configuration. ET12470 type N female to UHF male adapter operates to 300 MHz. The Ebeestock RF adapter provides good VSWR of 1.3:1 maximum.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
