

N Male to UHF Male Adapter

RF Adapters Technical Data Sheet

ET1247

1

Configuration

- N Male Connector 1
- UHF Male Connector 2

- 50 Ohms
- Straight Body Geometry

Features

Gold Plated Contact

Applications

• Allows Connection Between Series

General Purpose Test

Description

Ebeestock's ET12471 type N male to UHF male adapter is part of our full line of RF components available for same-day shipping. Our type N to UHF adapter has a male to male gender configuration.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications

31ZE	
Length	1.575 in [40.01 mm]
Width	0.8 in [20.32 mm]
Weight	0.144 lbs [65.32 g]

Type	N Male	UHF Male	
Polarity	Standard	Standard
