

N Female to TNC Male Right Angle Adapter

RF Adapters Technical Data Sheet

ET1249

8

Configuration

- N Female Connector 1
- TNC Male Connector 2

Features

- Max VSWR of 1.5:1 up to 6 GHz
- N Interface compliant with MIL-STD-348A

- 50 Ohms
- Right Angle Body Geometry
- TNC Interface compliant with MIL-STD-348A
- Gold Plated Brass Contact

Applications

• Allows Connection Between Series

General Purpose Test

Description

Ebeestock's ET12498 type N female to TNC male right angle adapter is part of our full line of RF components available for same-day shipping. Our type N to TNC adapter has a female to male gender configuration. ET12498 type N female to TNC male adapter operates to 6 GHz. The Ebeestock RF adapter provides good VSWR of 1.5:1 maximum. This low profile right angle type N to TNC adapter allows for easier connections in tight spaces.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

ctrical Specifications			
Frequency Range	DC	1 5.1	GHz
VSWR Operating Voltage (AC)		1.5:1 500	Vrms
