

Precision N Female to N Female 4 Hole Flange Mount Adapter

## RF Adapters Technical Data Sheet

ET1252

4

## Configuration

- N Female Connector 1
- N Female Connector 2
- 50 Ohms

- Precision Design
- Straight Body Geometry
- 4 Hole Flange Mount Method

#### Features

- Max VSWR of 1.15:1 up to 18 GHz
- N Interface compliant with MIL-C-39012
- Gold Plated Beryllium Copper Contact

## Applications

General Purpose Test

Rack Mounted Equipment

Precision Test & Measurement

#### Description

Ebeestock's ET12524 precision type N female to type N female 4 hole flange adapter is part of our full line of RF components available for same-day shipping. Our type N to type N adapter has a female to female gender configuration in a precision design. ET12524 type N female to type N female adapter operates to 18 GHz. The Ebeestock RF adapter provides excellent VSWR of 1.15:1 maximum. This RF type N to type N 4 hole flange adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications			
Frequency Range	DC	18	GHz
VSWR		1.15:1	

#### Mechanical Specifications

 Size

 Length
 1.7 in [43.18 mm]

 Width
 1 in [25.4 mm]

 Height
 1 in [25.4 mm]

 Weight
 0.122 lbs [55.34 g]
