

Precision N Male to TNC Male Adapter

# RF Adapters Technical Data Sheet

ET1252

5

### Configuration

- N Male Connector 1
- TNC Male Connector 2
- 50 Ohms

- Precision Design
- Straight Body Geometry

#### Features

- Max VSWR of 1.15:1 up to 18 GHz
- N Interface compliant with MIL-C-39012
- TNC Interface compliant with MIL-C-39012
- Gold Plated Beryllium Copper Contact

## Applications

Allows Connection Between Series
 General Purpose Test

Precision Test & Measurement

#### Description

Ebeestock's ET12525 precision type N male to TNC male adapter is part of our full line of RF components available for same- day shipping. Our type N to TNC adapter has a male to male gender configuration built of durable stainless steel in a precision design. ET12525 type N male to TNC male adapter operates to 18 GHz. The Ebeestock RF adapter provides excellent VSWR of 1.15:1 maximum.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
