

SMA Female to N Female Bulkhead Mount Adapter

# RF Adapters Technical Data Sheet

ET1256

5

### Configuration

- SMA Female Connector 1
- N Female Connector 2
- 50 Ohms

- Straight Body Geometry
- Bulkhead Mount Method

#### Features

- Max VSWR of 1.3:1 up to 11 GHz
- SMA Interface compliant with MIL-STD-348A
- N Interface compliant with MIL-STD-348A
- Gold Plated Beryllium Copper Contact
- 50 µ-in min Gold Contact Plating

# Applications

- Allows Connection Between Series
- General Purpose Test
- Rack Mounted Equipment

#### Description

Ebeestock's ET12565 SMA female to type N female bulkhead adapter is part of our full line of RF components available for same-day shipping. The SMA connector mates mechanically with commercially available 3.5mm and 2.92mm (K) connectors. Our SMA to type N adapter has a female to female gender configuration. ET12565 SMA female to type N female adapter operates to 11 GHz. The Ebeestock RF adapter provides good VSWR of 1.3:1 maximum. This RF SMA to type N bulkhead adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

ectrical Specifications			
Erequency Range	DC	11	GHz
VSWR		1.3:1	
Operating Voltage (AC)		500	Vrms
