

SMA Female to SMA Female Radius Right Angle Gold Plated Stainless Steel Adapter

# RF Adapters Technical Data Sheet

ET12692

## Configuration

- SMA Female Connector 1
- SMA Female Connector 2

### Features

- Max VSWR of 1.25:1 up to 18 GHz
- SMA interface compliant with MIL-STD 348

- 50 Ohm
- Radius Right Angle Body Geometry
- 30 µin contact plating
- Gold Plated Beryllium Copper Contact

### Applications

General Purpose Test

### Description

Ebeestock's ET12692 SMA female to SMA female radius right angle adapter is part of our full line of RF components available for same-day shipping. The SMA connector mates mechanically with commercially available 3.5mm and 2.92mm (K) connectors. Our SMA to SMA adapter has a female to female gender configuration built of durable stainless steel. ET12692 SMA female to SMA female adapter is gold plated and operates to 18 GHz. The Ebeestock RF adapter provides excellent VSWR of 1.25:1 maximum. This radius right angle SMA to SMA adapter allows for easier connections in tight spaces.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

#### **Electrical Specifications**

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		18	GHz
VSWR		1.25:1		

Electrical Specification Notes: Values at 25°C, sea level.

#### Mechanical Specifications

Size

Length 0.483 in [12.27 mm] Height 0.46 in [11.68 mm]
