

SMB Tee Adapter Jack-Plug-Jack

RF Adapters Technical Data Sheet

ET1277

3

Configuration

- SMB Jack Connector 1
- SMB Plug Connector 2

- 50 Ohm
- Tee Body Geometry

Features

- SMB interface compliant with MIL-STD-348A
- 30 µin minimum contact plating

Gold Plated Contact

Applications

General Purpose Test

Description

Ebeestock's ET12773 SMB Tee adapter jack-plug-jack is part of our full line of RF components available for same-day shipping. Our SMB tee adapter has a jack-plug-jack gender configuration. Our SMB tee connector operates to 100 MHz. Tee adapters (also called tee connectors) are three port devices that can be used to split or combine a signal. Unlike power dividers/combiners, however, they do not provide matched impedance at all ports.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

lectrical Specifications				
Erequency Range	DC		100	MHz
VSWR		2.1:1		
Operating Voltage (AC)			335	Vrms

Electrical Specification Notes: Values at 25°C, sea level.

Mechanical Specifications

Size	
Length	0.795 in [20.19 mm]
Width	0.256 in [6.5 mm]
Height	0.555 in [14.1 mm]
Weight	0.006 lbs [2.72 g]
