

Isolated Ground 75 Ohm TNC Female to 75 Ohm TNC Female Bulkh ead Mount Adapter

RF Adapters Technical Data Sheet

ET1284

7

Configuration

- TNC Female Connector 1
- TNC Female Connector 2
- 75 Ohms

- Straight Body Geometry
- Bulkhead Mount Method

Features

- Typical VSWR of 1.3:1 up to 1,000 MHz
- Isolated Ground

- Gold Plated Brass Contact
- 50 µ-in min Gold Contact Plating

Applications

General Purpose Test

Rack Mounted Equipment

Description

Ebeestock's ET12847 isolated ground 75 ohm TNC female to TNC female bulkhead adapter is part of our full line of RF components available for same-day shipping. Our TNC to TNC adapter has a female to female gender configuration. ET12847 TNC female to TNC female adapter operates to 1,000 MHz. This RF TNC to TNC bulkhead adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Ebeestock also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications				
Frequency Range	DC		1,000	MHz
VSWR		1.3:1		

Electrical Specification Notes: Values at 25°C, sea level.
